Kiddies Of The Olympic Games.

These two children were the youngest of the International Athletes competing at the Olympic Games in Antwerp. They are Miss Aileen Riggen, 13 year old Brooklyn, N. Y. girl who represented the United States and Nils Shoglund, Sweden champion swimmer who is just one month shy of fourteen. Both scored in the diving events.

Monitors First Teachers Convention Is A Decided Success.

The Second Annual Convention of teachers and others interested in education convened in Monitor Thursday Oct. 7th in the Senior room of the public school with President Fraser in the chair. Addresses of Welcome on behalf of the School Board by Mr. Hargrove and on behalf of the Village Council by Rev. Mr. Davidge were replied to by Inspector Gray of Consort. The usual pleasantries put everyone in a good humor and Mrs. Teetzel presented Dramatization in reading to an interested audience. As this is a familiar theme to teachers the discussion developed to an experience meeting bringing out several important points.

"The Teacher's Alliance Movement" by J. W. Barnett, Edmonton succeeded in organizing a local in this Inspectorate of which Prin. Fraser of Consort was elected President.

Nature Study by Inspector Carr of Caster was a very practical paper and this subject has about ceased to agitate teacher's conventions. He showed that it was rather a spirit of studying nature rather than a separate subject.

The Teaching of Arithmetic by Inspector Gray brought out the discussion of the proper standards and tests of efficiency. He stated that this is the subject most poorly taught of all the subjects considering the time spent upon it.

Bird Study by Miss McCrae of Caster was a paper full of interest to the teachers of primary rooms and ungraded schools. It brought up the never settled question of what birds should be killed.

The last paper the Teaching of foreign Children by Mr. R. Chapman, gave the latest continued in column five

OBITUARY

It is with feelings of the deepest regret that we have to record this week the sad death of Mrs. E. T. Stewart, who passed to her reward on Thursday, October 7th, at Altario Hospital.

The deceased lady was well known in the district, her bright and cheery manner had won for her a large circle of friends, all of whom will sadly miss her.

Mrs. Stewart was born in 1896 in Halton County, Ontario and came west to Saskatchewan with her parents in 1913, removing the following year to Kirriemuir, Alta. On August 29th, 1914, she married E. T. Stewart of Monitor and later they took up their residence on their farm, south of town.

The deceased leaves to mourn her loss, her parents, Mr. and Mrs. De Forest, at Daysland, Alta., her husband and three children.

The sympathy of the whole community is extended to E. T. Stewart in this sad bereavement.

Resolved that we the teachers of the Consort Inspectorate together here convened express our deepest gratitude to the Citizens of Monitor for their hospitality, in particular to the O. N. O. Club for their pleasant Social evening, to the Monitor Citizen's Band, and to Mr. Percy Moth for the use of his hall.

Moved by W. Gray, Seconded by Mr. Hardy Carried unanimously.

Next Monday, October the 18th, is by Government edict, Thanksgiving Day, and therefore a Dominion Holiday. Bear this in mind to-morrow.

Woman Holds High Positions With Uncle Sam

Shall women rule the Nation? That is the question many in official Washington are asking as prominent women are being appointed to important positions in the Federal Government. Miss Mabel T. Boardman, former head of the American Red Cross is the latest of the female appointees. President Wilson recently appointed her.

A Card Of Thanks

I desire to express my sincere and heartfelt thanks to my many friends for the sympathy and kindnesses shown to my family and myself, in my recent bereavement. Especially to the ladies who so generously cared for my motherless children.

E. T. Stewart.

We are in receipt this week of a copy of the "Weekly Monitor" a newspaper published at Bridgetown, N. S. It is a bright and new paper, seven columns and publishes the news of two counties, Annapolis and Digby. Greetings to "The Monitor" from "The Monitor".

Don't forget the big Dance in the Big Hall to-night. The music is going to be out of the ordinary, and from reports received from other points, the music is fine to dance to.

Mr. H. Mason, who has been visiting his brother, W. F. Mason here for the last few weeks, left on Monday last for Vancouver.

methods as shown at the Summer School, the direct and the indirect, each having its advocates among the teachers of the Convention.

The Revision of Course of Studies in the public school brought out all shades of opinion from, "The present course is about as nearly perfect as could be" to, "The present course is ridiculous in every particular". The majority however decided that there should be a revision of the course.

At the closing session Mr. W. F. Hargrove was elected Pres. for ensuing year and Mrs. Shannon Sec-Treas.

Mrs. Huston was elected Vice President and Mr. Fraser, Mr. Brewer, Miss Inkster and Mr. Hardy were added to the executive.

Convention adjourned sine die with National Anthem.

OLD FOLKS NEED MILD BOWEL TONIC

And Should Avoid the Use of
Harsh Pills and Drastic
Purgatives.

Old people, no matter how sound and healthy, should avoid cathartic pills, purgative water, salts and all such temporary relief measures. They ease conditions today, but bind you up worse than ever tomorrow.

It is better to get the bowels into the habit of performing their needful function at a certain time each day and this can be done by strengthening the muscles of the stomach and bowels by the tonic action of Dr. Hamilton's Pills, a mild laxative that acts as close to nature's way as possible.

Thousands of people, old and young, prevent and cure habitual constipation by using Dr. Hamilton's Pills, a mild yet active medicine that is noted for its promptness in curing headaches, belching gas, sourness in the stomach, fullness after meals, liver soreness and muddy complexion. You'll have the best of health, feel good, eat well, digest and sleep well if you follow the system by Dr. Hamilton's Pills of Mandrake and Butternut, 25c per box at all dealers.

He stretched a claw-like finger toward the portrait.

"You know white girl; good. You no touch Bushwhacker!"

Hallibut stood frowning upon the old Indian.

"Listen," he said, sitting down beside the old man, "you must understand that the portrait you see on the wall is not of a Bushwhacker girl or of anyone else you know. That's the likeness of a sister, full of years, years and years ago. It was painted in England, a land across the Great Waters, Noah."

"No, no," cried the Indian. "Noah have good eyes. He can see and understand. Big man need not lie—white girl Noah's good friend."

Hallibut arose and wiped his streaming brow. Then he sank into a chair and ran his fingers through his gray hair.

"I'm hanged if I know what he's driving at," he mused. "Apparently he thinks I want to wipe the Bushwhackers off the map." Aloud he said: "Who sent you here, my good man?"

Noah did not answer. He was looking into the coals.

"Bushwhacker know big man would steal bush," he said at length. "Noah no want big man there. Noah no want see big man steal good friend's home. Big man no come; no send other man. Gloss big man's friend."

Once more Colonel Hallibut looked puzzled.

"I'm hanged if I understand what he means," he muttered. "Big man no send vessel. I'm on the Indian. Bushwhacker no want 'um. Seare duck plenty bad. Noah come tell big man no send."

"Ah," exclaimed Hallibut, "I'm beginning to see light. They sent you over to tell me I musn't send my schooner up the creek, eh?"

"No one send; Noah come himself. Noah know Bushwhacker shoot white big man come take timber. Big man

no come—no send agent again."

The Colonel arose and paced up and down the room. "Well, of all things!" he exclaimed. "What do you think of all this, Phoebe, girl—turning to the picture, 'what do you think of those impudent Bushwhackers?'"

The aged Indian had risen and was wrapping his blanket about him.

"Noah," said Hallibut, "the Bushwhackers haven't any particular use for me, I understand."

"Near war between us. But I'm going to send my vessel up that creek just the same. I'm willing to promise you that I won't do the Bushwhackers any harm until they try to do me harm. They threaten to burn my schooner, and maybe they will—we'll see. I'll tell you what I am going to do. I'm going to send that schooner around the Point and into the bay soon. I want you to meet her at the narrow and act as watchman aboard her. If you don't want the Bushwhackers to come to any harm, you must see that my vessel is not harmed. I believe you are honest, and I will pay you well. What do you say, Noah?"

Noah pointed once more to the portrait.

"You do much for her?" he asked simply.

The big man started. Then he smiled and said gently:

"Old man, God only knows how much I would do—if I could."

"Noah will meet big man's vessel," said the Indian, holding out his hand. After the strange messenger had eaten and gone, Hallibut paced to and fro across the wide room, pondering deeply upon what he had learned.

He stopped at last before the portrait on the wall.

"I wonder why the poor old chap should think he knows you, Phoebe?" he said, addressing the girl in the frame.

It was a custom of his to speak all his inner thoughts to the picture. One may lose summer forever; but he can treasure a dead flower, because its perfume clings to it and never quite dies.

"I like the old man because he thinks he knows you," he murmured, "just because he thinks he knows you, Phoebe."

His head dropped and he strode toward the door.

"I don't know why I should not teach those Bushwhackers a lesson!" he ejaculated.

He turned and let his frowning eyes rest on the painting, and as he gazed his face softened. The big eyes seemed to be pleading with him.

"Maybe there really is a girl who looks like you, Phoebe," he said gently. "A little girl of the Wild that looks like you."

And the face smiled on him as he passed out through the doorway.

CHAPTER XIII. On the Creek Path.

It was early twilight when the old Indian once again reached Bushwhackers' Place. All day he had kept to the trail, jogging along without a mouthful to eat, simply tightening his belt when hunger gnawed at his stomach.

It was a long journey from Rond Eau Point to St. Thomas, and over rough ground—a very long journey for a man of Noah's age to attempt. But he was an Indian and his years did not weigh him down.

His sinews were tough like the seasoned hickory fiber, and his spirit was young like the spirit of the great shadowed woodland. Age counted for naught where life derived its strength from its environment.

To the old man Gloss was a star that had loosened itself from some strange firmament and strayed into the green uplands.

He had watched her grow from a slender girl into a graceful creature with beauty that nothing of the woodland could match.

One with eyes that held all the lights that ever shone on lake or wood, and life that bubbled and laughed and defied.

For her and her protectors, Noah had undertaken the trying mission of visiting the rich man Hallibut, and advising him to leave the men of the hardwoods alone.

He had taken the portrait on the lonely man's walls for that of Gloss, but this was not strange. The old man's eyes were growing dim and they sometimes played pranks on him. But the incident was sufficient to bind his loyalty to the man who threatened the Bushwhackers.

Noah was willing to act as watchman aboard the schooner. He had lost all the impetuosity of youth. He was old and wise, and he would watch and wait—and act, if necessary, when the time came.

Gloss, coming up from the spring with a pail of foaming milk, newly strained and ready for "setting," caught sight of her old friend and gave a call like the trill of a marsh-lark.

The Indian, without speaking, overtook her and reached for the pail, which he carried to the house and set on the table outside the cellar door.

Big McTavish was chopping logs for the evening fire, and caught sight of Noah as he came around the corner of the house.

"Well, well, Chief," he cried "thought maybe you was on the warpath. Ain't seen you here for days. Come along in and get some supper."

"Good," grunted the old man, and followed McTavish into the kitchen.

Gloss laid the cloth for the visitor's supper. Her eyes brightened and her red lips smiled when the old man turned his wrinkled face toward her. "Noah," she said, "you musn't stir away from Gloss so long again. It's heap lonely without you here."

Noah's eyes flashed at the words, and he spoke using only the mellowest words of the English tongue, as was his custom.

"Wild-bird no lonely where wild world be. Gloss speak to make Injun heart glad; now Injun speak to make wild-bird sing. Big water," pointing southward, "big forest," sweeping his arm about, "all stay same. No change. Good, much good. Noah, he know."

Granny McTavish, coming from the

bedroom, caught the words of the Indian.

"Reet, Noah," she smiled, "there'll be na' change telled God wulls, and may be na' wull it frace long."

"Ugh, you tell Boy," said Noah, "tell him Noah say it."

The old lady held up her hands. "There's na' tellin' him at all what ever," she sighed. "He's muckle disturbed and he'll na' listen to reason. He's out there noo trudgin' the wet woods, but he'll noo get comfort there, mon; he mawn seek it i' the guid Book. I've told him o' it aften enoo. God forgive him for th' wild creature he is—and he's a guid lad at heart, enoo, a guid lad at heart—"

"Tush, Granny," chided Big McTavish. "Boy's not worryin' over anything. He's a bit unsettled, that's all. He's out in the woods 'cause he loves th' woods. See, you've spoiled Noah's supper for him. He's thinkin' Boy's a bit crazy, maybe."

Noah pushed back his chair from the table and arose.

"You're not going so soon, surely, Noah?" cried Gloss.

"Noah must go to Point," answered the Indian. "Canoe down on Eau shore."

Gloss snatched up her cap. "I'll go down to th' shore with you," she cried. "Maybe I'll meet Boy."

"No," said Noah, "Gloss no come."

"But I say 'yes,' replied Gloss, dancing nimbly in front of the old man. "Remember, I haven't seen you for ages, and I must go. Come along."

She took his hand and they passed out together. They walked along, Gloss taking the lead, and neither speaking a word. They understood each other well, and something unbreakable bound them together while

Our National Thanksgiving

By proclamation of the Governor-General in Council, Monday, October 18, has been declared to be a day of national thanksgiving in Canada, and all classes of the Canadian people are asked to observe it as such.

There are many good and substantial reasons why the people of this Dominion should observe Thanksgiving Day this year, not merely as a holiday, but in a deep and reverent spirit of thanksgiving.

A kindly Providence has blessed the labors of our husbandmen with a bountiful harvest, not, perhaps, one of those bumper crops which come once in a while, but a better crop than has been reaped in the West for some years past. Unlike the past two or three years, there are no extensive areas of the Prairie Provinces which have suffered a crop failure this year. While costs of production have remained high, world conditions are such as to guarantee a good price for Western Canada's grain crop.

Coupled with a satisfactory return from our fields, business conditions throughout Canada have continued uniformly good during the year. Our factories have been busy, there has been a marked revival in building operations, work has been plentiful and wages high. In fact the only check to development in Canada this year has been occasioned by inability to secure supplies and materials in sufficient quantities to meet all demands.

Compared with other countries, Canada has been remarkably free from industrial turmoil and strife this year. Labor troubles, culminating in strikes, have been few in number, and those which have taken place have been settled generally in an amicable way, and there has not been those great upheavals which last year caused enormous loss and suffering and at one time seemed to threaten the continuance of responsible constitutional government in this country. Both Labor and Capital have met their responsibilities to each other, and to the country at large, in a manner worthy of praise and deserving of the commendation of all people. Both have benefited and Canada has prospered. Canadians have good reason to be thankful over such a situation.

During 1920, too, Canada has been remarkably free from serious epidemics of disease and no great disasters have occurred, bringing loss, and sorrow and death to whole communities. This is indeed a cause for thankfulness.

The unrest which pervaded all ranks of society following the close of the war still affects our people, but it is more and more finding its manifestation in desires, plans and movements designed to bring about better conditions of living, of health, a higher standard of education and a more general provision that all people shall enjoy some of the best things in life. There is in evidence an impatience with conditions which made for evil and suffering in the past and a very widespread determination for a better standard of living for all. Such a feeling is a cause for national thanksgiving because it must inevitably result in finer national ideals and important reforms.

Canada bore itself nobly in the war. It was a time for sacrifice and service and the Canadian people did their full duty, and have reason to be proud of the part their Dominion took in that great crusade for human liberty. Equally, have our people a right to congratulate themselves upon the comparative ease and success with which the Dominion has reverted to a peace basis and has re-absorbed its soldiers and war workers into civilian life without any serious trouble. These things are cause for sincere thanksgiving.

But if a contemplation of conditions at home is not a sufficient cause for thanksgiving, it is only necessary that Canadians should consider for a moment present conditions existing in a large part of Europe and Asia, where a state of war still prevails, where disease and famine stalk through the land, where countless thousands of people are suffering and dying through lack of the bare necessities of life, and where orphan children in their tens of thousands are merely existing without hardly a ray of hope for the future. Viewing conditions in Canada today in the light of conditions in so many European countries, Canadians may well rejoice that their lot has been cast in this Dominion. They may well rejoice and thank God that Canada is their home. And their thanksgiving may well take a practical turn in the form of helping, to the extent that they are able, to alleviate the suffering of others.

Getting A Stand of Alfalfa

Soil Should be Made as Smooth as Possible.

The methods of sowing alfalfa vary with the location and climate. In the arid districts it is a simple matter. The land is usually ploughed in early spring, worked down to a good seed bed, and the seed is sown alone in middle spring time. A crop is often secured the first year, although the plants are not at their best until the third year.

The amount of seed to the acre varies from four to thirty pounds. The smaller amount is generally grown for the production of seed, as it seeds better not to be thick. It has been calculated that there are 14-48,000 seeds in a bushels of alfalfa seed. Therefore, to sow half a bushel to the acre would put 166 seeds to the square foot. To sow fifteen pounds would put 83 seeds. It is evident that it is more essential to have good seed and good distribution of it than to use a great amount of seed. About twelve to sixteen plants to the square foot are all that will ever stand, and on rich soil, they will not long endure even that much crowding.

Weeds often come up to crowd the young alfalfa. To destroy these weeds the field should be mown as close to the ground as possible. There may come a yellowish rust which attacks the leaves, but it is very uncommon. To destroy this rust close with a mower. When preparing soil for alfalfa, leave as smooth as possible so that it all can be securely mowed. —M. Wilcox, Camrose, Alta.

Dickens was a reporter on a London paper when he was 22 years old.

Coughs, Colds, Bronchitis

If there is an ailment in the throat or chest, it is surely essential that the remedy be conveyed direct to the affected part. It's because the healing vapor of Catarrhazone is breathed into the sore, irritated throat and bronchial tubes that its balsamic fumes kill the germs and destroy the cause of the trouble. These are the reasons why Catarrhazone never yet failed to cure a genuine case of Catarrh, Asthma, Bronchitis or Throat Trouble.

The wonderfully-soothing vapor of Catarrhazone instantly reaches the further recesses of the lungs, produces a healing curative effect that is impossible with a tablet or liquid, which goes merely to the stomach, and fails entirely to help the throat or lungs.

Catarrhazone Just Breathe It

To permanently cure your winter ills your coughs, sneezing and Catarrh, by all means use a tried and proven remedy like Catarrhazone. But beware of the substitute. Large outfit lasts two months, costs \$1.00, small size 50c, trial size 25c, at dealers everywhere.

Farm Sold For \$59,000.

In 1906 a farm near Milestone, Saskatchewan, was bought for \$12 an acre. It was recently sold for \$59,000, or \$150 an acre.

The use of Miller's Worm Powders insures healthy children so far as the ailments attributable to worms are concerned. A high mortality among children is traceable to worms. These sap the strength of infants so that they are unable to maintain the battle for life and succumb to weakness. This preparation gives promise of health and keeps it.

Alberta Wool Marketed.

Three hundred thousand pounds of wool have so far been shipped from Alberta to the Co-operative Wool Growers' Association in Toronto for disposal, and there are still two carlots to ship. This is a record, as last year the total output was only 260,000 pounds. For some time, there was no market for wool, but it is now quoted at anywhere from 25c to 60c per pound.

The Association this year has handled about 2,000,000 pounds of wool from all parts of Canada, and the price secured is considered to be a splendid example of co-operation.

Greater Production

Big Grain Crops From Cultivation of Indian Lands.

Ottawa.—The greater production movement inaugurated by Rt. Hon. Arthur Meighen through the Indian Department in 1918 whereby some 20,000 acres of Indian lands throughout the prairie provinces were cultivated and turned over to grain growing, has more than justified the hopes of the officials who were behind it. The advances made by the Government for carrying out the scheme will be repaid this year, and it is estimated that there will be a surplus of about \$1,000,000, as a result of the splendid crops harvested on all these lands, which, previous to 1918 produced only prairie hay and grass.

Minard's Liniment For Dandruff.

Dominion Prosperous.

Hon. J. D. Reid, Canadian Minister of Railways and Canals, on landing in England from Canada, gave to interviewers a rosy picture of Canadian conditions. He said that the railway proposition of the Dominion was good. "We have magnificent crops, our industries are running almost full time, and we have very few labor troubles," the minister added. "Our revenues are fully up to expectations, we are commencing to pay off our war debt and we are a happy and contented people. What more could we desire?"

"COLD IN THE HEAD"

Is an acute attack of Nasal Catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the System, cleanse the blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the Mucous Surfaces of the System. All Druggists 75c. Testimonials free. \$100.00 for any case of catarrh that HALL'S CATARRH MEDICINE will not cure. F. J. Cheney & Co., Toledo, Ohio.

A Funny Horse.

"You remember you sold me a horse last week?" said the cabman angrily, to the horse dealer. "Yes. What about him?" "He fell dead yesterday." "Well, I never!" said the dealer. "I told you he had some funny ways, but I never knew him to do that before."

Helping Livestock

Nearly \$120,000 has been guaranteed this year under the Livestock Encouragement Act of the province, and it is estimated that a total of \$275,000 will be loaned for the year. The money is being used largely by farmers to buy milch cows.

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for the little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lunette, Immaculate Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them. Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Manitoba's Grain Acreage

Crop Expected to Yield a Record Financial Return to Farmers.

Manitoba's total crop area for 1920 slightly exceeds 6,000,000 acres, falling short of last year's figures by 300,000 acres, according to official estimates given out by the provincial department of agriculture. Despite decreases, however, the crop is expected to yield a record financial return to farmers. The total estimated wheat acreage is 2,105,622 acres, as against 2,880,301 acres in 1919. Oats acreage—increased 26,687 with a total acreage of 1,873,954. Barley and rye show a decrease, while flax shows a notable increase, there being 89,000 acres more than last year.

FREQUENT HEADACHES A DANGER SIGNAL

The Victim Nearly Always Suffers From Weak Watery Blood.

There are few ailments that cause more genuine misery than nervous or sick headaches. Only those who have endured the suffering, sometimes for days at a stretch, can realize the agony of the victims. Noises increase the pain; food is unthought of, for it only adds to the distress. When the attack is on there is little to be done until it passes away. These headaches are nearly always a danger signal that too frequently pass unheeded. They are the symptoms of the maladies, such as anaemia, constipation, indigestion, etc., and when these are cured the headaches permanently disappear. Headaches are more often a sign of weak, watery blood than anything else, and the most successful treatment, therefore, is a remedy that will rebuild the blood and make it rich and red. This can be done through a fair course of Dr. Williams' Pink Pills, which has a special action on the blood, and through the blood on the nerves. In this way, Dr. Williams' Pink Pills have been found invaluable in a wide range of diseases due to poor, watery blood such as anaemia, rheumatism, indigestion, after a course of influenza, neuralgia, etc. The effectiveness of this tonic treatment is illustrated in the following case: Mrs. Geo. Arn, No. 6, Simcoe, Ont., says: "Some years ago my daughter, then a young girl of eleven, became very much run down and nervous. She was troubled greatly with sick headaches, and frequently with vomiting spells, and although we lived just across the road from the school, she was not able to attend. She was taking medicine all this time, but it did not seem to do her any good. I had often read of Dr. Williams' Pink Pills, and finally decided to give them to her. By the time she had taken two boxes she seemed much better, and before the fifth box was finished, she was again in the best of health and has always since enjoyed the best of health. I am satisfied it was Dr. Williams' Pink Pills that restored her, and I have since seen equally good results in other cases." You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Wheat in Northern Canada

Slight Risk to Crops Owing to Long Days.

Stories of the great wealth in storage in the far north, 1,000 miles and more north of Edmonton, have been brought back by H. A. A HEAVY LOAD IS BEING CARRIED BY THE FARMERS

AGRICULTURE UNABLE TO COMPETE UNDER CONDITIONS.

Conflicting Evidence Is Given Before Tariff Commission at Edmonton.

Edmonton, Alta.—Protection as enforced by the present tariff is responsible for the prosperity of Edmonton's industries and is necessary to their expansion, while at the same time it is proving a burden to the farmers and driving them off the land, according to conflicting evidence given before the session of the Tariff Commission here.

The manufacturers of this city endorsed the stand taken in all parts of the Dominion by manufacturers who urge the retention of the protective tariff, while the representatives of the farmers urge that it be dropped, to give them a chance to prosper.

Reduction of the tariff to give the farmers opportunities to buy in the open market, was requested by Hon. Duncan Marshall, provincial minister of agriculture, who was the chief witness before the Tariff Commission at the afternoon session.

"Alberta farmers have to compete

in the open market for the sale of their goods, all that they ask is that they have the privilege of buying implements in the same manner, which will enable them to prosper," he said. "The increase of exports will bring revenue to the Dominion treasury and the best means of securing this increase will be to remove the tariff on farm implements," he continued. He pointed out that the farmer cannot possibly benefit by the present tariff. He has to compete in the open market for the sale of his crops; as an example, Mr. Marshall pointed out that this year no British buyers were in the market and that consequently the price of wheat has undergone fluctuations which will mean money loss to every farmer.

He asked that the Dominion Government demand from the British Government permission to allow Canadian livestock growers the entry of their cattle.

Mr. Marshall concluded by asking that the tariff be put on a purely revenue basis, and the element of protection deducted.

Harry Bell, from Namayo, a veteran farmer, gave detailed figures of his expenditures and estimated revenue from the cultivation of a five hundred acre farm. His balance will be, he stated, \$3,685, without any deductions for his and a grown-up son's labor. Farmers, he told the commissioners, were entirely unprepared for the drop in wheat prices. He thought that the tariff on farm implements could be fairly cut in half, and so relieve the farmers of some of the burden.

Rice Shepherd, for 15 years an official of the United Farmers of Alberta Association, charged that the Canadian manufacturers took the benefit of the tariff to raise prices of Canadian manufacture.

"Our greatest need is colonization of productive areas, but we must have a corresponding development of urban communities, and these require for their proper growth, a suitable measure of industrial development," said C. G. Robertson before the Tariff Commission here. He represented Edmonton manufacturers who asked for continuance of the tariff without which, they claim, industries would be unable to cope with the U.S. competition. The statement contained a general survey of industrial conditions in the province.

Germans Ordered To Release Ships

Munitions For Poland Are Held in Kiel Canal.

Paris.—The council of ambassadors despatched a note to Germany demanding the immediate release of three ships loaded with munitions for Poland, which are being held in the Kiel Canal by the German authorities. The note specifically mentions the Danish ship Dorrit, but there are two other ships which also are being held.

Germany has taken the position that she is neutral in the Russo-Polish war and that therefore she could not permit the passage of the ships, which are destined for Danzig.

Miners Must Get Busy

Alberta Coal Operators Will Re-open Negotiations When Men Resume Work.

Calgary, Alta.—At a joint meeting of the Western Canada Coal Operators' Associations and officials of the U.M.W. of America, the former stated that the question of opening the existing contract could not be entertained until all the miners were back at work. The request for the re-opening of negotiations with a view to increasing the scale of the day wage workers, was contingent on a large number of the men continuing at work, said the mine operators.

The strike of miners in district 18 has been extended by the walkout of the men at Michael and Fernie, where about 100 men are reported to have left work. There is no addition to the strikers' ranks in the Drumheller field.

DECLARES THAT WHEAT DROP DUE TO OPEN MARKET

PRESIDENT WOOD DEPLORES ABOLITION OF WHEAT BOARD.

Sir George Foster Says Decline Not Result of Fact That Board Is Not Handling Wheat.

Calgary, Alta.—H. W. Wood, president of the United Farmers of Alberta, stated that he agreed with the remarks of Hon. George Langley, vice-president of the Saskatchewan Co-operative Elevator Company, that the present condition of the wheat market was due to the abolition of the Canadian Wheat Board.

"I would prefer, however, to withhold my criticism of the Government until I see what action is taken to meet the present situation," he remarked.

Mr. Wood stated there was no question but that the wheat would have been handled very much better through the board than on the open market. Wheat, he said, had declined one dollar a bushel in the cash price since the selling was taken out of the hands of the board. The price to the miller was \$3.15 and the export price was not lower.

Ottawa.—Commenting on a news dispatch from Calgary in which H. W. Wood, president of the United Farmers of Alberta, was quoted as saying that Canadian wheat could have been handled very much better through the Canadian Wheat Board

One Great Essential To a Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung. The trouble is they pay more attention to their social and house duties than they do to their health. Is it any wonder then that they become irritable and nervous, have hot flashes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired-out, weary women need to restore them to the blessings of good health. Mrs. P. H. Ryan, Sand Point, N.S., writes: "I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flashes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes, when I felt like a different person. I am never without them in the house and recommend them to all who suffer with their nerves."

Toronto Business Man Speaks Highly of "Marlatt's Specific"

Will Gladly Recommend to Any Gall Stone Sufferer.

Toronto, Ont.

J. W. Marlatt & Co.:

Gentlemen.—I was in poor health for a long time, and I could not find out what was my trouble until a friend of mine recommended me to try your "MARLATT'S SPECIFIC" for Gall Stones and Appendicitis, which I decided to do. I sent \$3.00 and got one treatment of your medicine, and after taking this treatment I was surprised to pass a number of Gall Stones without any pain or ache. I have not enjoyed as good HEALTH in ten years as I have at the present time.

I am so pleased at what your medicine has done for me that I would heartily recommend it to anyone suffering from Gall Stones. Any further testimonial which I can give to any sufferer will be cheerfully given.

than in the open market, and that the price had declined a dollar a bushel since the board had ceased to handle it, Sir George Foster spoke as follows:

"The fact that the price of wheat in Canada has declined one dollar is no proof that it would not have dropped had its sale been under the control of the board. It has declined equally or more in the States. This decline is not due to the fact that a board is not handling the wheat, but is a result of the supply of wheat in Canada at present exceeding the demand. It is not sound reasoning to say that it has declined because the wheat board is not handling it."

Steamer Lies in Deep Water.

Victoria, B.C.—The condition of the Grand Trunk steamer Prince Rupert, which ran ashore in Swanston Bay during a fog last week while on her way north from Vancouver with 200 passengers, lies in 60 feet of water at low tide. Divers have gone north, and the work of salvage will commence immediately. The steamer is lying on her beam end.

Inaugurate Campaign

For Canadian Ports

Shipping Interests Bid For Direct Trade With England.

London.—Canadian shipping interests are making a determined effort to capture British trade for Canada by means of Canadian ownership of ships.

Captain Smith, of the Canadian Merchant Marine Co., appeals to British merchants to deal direct with Canada through Canadian agents and to forget the idea that the Canadian market is best approached through New York.

"A legitimate attempt is being made to provide the necessary ships for Canada's export and import trade and open new avenues of direct trade for Canada through Canadian ports. Too much of Canada's trade is carried through the medium of the United States which has an adverse influence here in currency."

Will Ask Germans to Explain.

Paris.—The inter-allied commission in Berlin will be requested to investigate the circumstances of the burning at Hamburg of the German steamer Bismarck, which was building at a shipyard in the Port of Hamburg, and was to have been delivered to the allies under the terms of the peace treaty. The French government will also ask Germany for explanations regarding the burning of the Bismarck.

FIND DOCUMENTS DEALING WITH SINN FEIN RIOTS

Montreal.—The Montreal Star publishes the following: "The police believe they hold, in the arrest of Michael Symington, the key to the Sinn Fein disorders reported in the Dublin district after the successor of Lord Mayor Macswiney had been appointed. Symington, held without bail, is charged at present with unlawful possession of four rifles.

The rifles, the police claim to have been placed in secret places while Symington was a clerk in the Department of Public Works. The magistrate's hearing revealed not only this, but that the prisoner also possessed minutes of the Irish League of Self Determination. In a packing case where this was discovered, the police came upon the blue prints of the Irish offices and the government buildings surrounding it. In his living room were four army rifles, together with a mass of damaging documents all wrapped in a flag of the Irish republic. Detectives are now searching for vital documents which they think are missing, probably removed by Sinn Fein agents before the police arrived at the suspect's home."

The cleanliness of the sealed package appeals to the daintiness of a woman.

She knows that it protects the contents from dust, dirt, odors and moisture.

She will be doubly pleased with our new waxed board package—which we have adopted after several years of testing—because it is stronger, more secure and more completely air-tight; altogether the best container for tea that has yet been devised.

MEET Ingersoll Reliance—the seven jewelled star time-reporter of the Ingersoll Watches.

Smart as they make 'em, aristocratic in appearance, slim, suave and distinguished—but a regular fellow.

And he sure keeps regular time! Reliance has been trained that way. Before he leaves the Ingersoll factory he is tested to tell time correctly in six different positions—two days in each.

But you don't know the half of it, yet. Reliance is given 127 other inspections to see that his seven jewelled, bridge-type works function perfectly.

Those works contain the best features of 362 different watches which were studied in constructing Reliance—yet Reliance has 29 less parts than the average watch.

Simplicity, accuracy, sturdiness and beauty make the Reliance a watch anyone can be proud to carry.

Yet the price is but \$9.25 in nickel case, \$14.50 in gold-filled.

October 25th Is Date Set For School and Band Box Social and Dance

Arrangements are well under way for the big Box-Social and Dance that is being put on on October 25th in the Big Hall. The object of this affair is for the raising of funds wherewith to supply extra paraphernalia for the School. Additional apparatus is needed for the Chemistry classes, the library needs replenishing, pictures are desired for the Junior room, and there are several other odds and ends that the teaching staff is desirous of procuring.

The objection has been raised that this financing is part of the School Trustees. In a way that is so, in ordinary, or good years, there would be no necessity for this manner of raising funds, but when you stop to consider that only about one-twentieth of the Taxes have been paid into the school treasury so far this year, it is not hard to see further that such expenditure is out of the question. By methods of the social, however, sufficient funds, it is hoped, will be raised whereby the full equipment can be added to the school furniture. The Band is collaborating with the school in the venture, and we sincerely hope that the two institutions will receive the hearty support of all the citizens of the district.

Further announcements will be made later.

Have You Your CHAUTAUQUA Ticket ?

Have you purchased your Chautauqua ticket yet? Your merchant has them. This years programme promises to be the best ever, and we would like every one to secure a ticket and take advantage of this splendid series of Concerts. The price for the adult ticket is \$1.75, and the childrens are \$1.00. When you stop to consider the fact that almost any sort of a show that comes into town charges a dollar for admission, you must see that to get admission to six first class concerts and lectures for \$1.75 is a chance in a lifetime. Obey that impulse—get yours now. Tickets may also be secured at the News office.
